

39" FAN

39" FAN

Our 39-inch air circulation fans are designed to maintain proper airflow and temperature in poultry farms and various industrial settings. These versatile fans cater to multiple applications, striking a balance between functionality and adaptability. Available in both single-phase and three-phase motor options, these fans are meticulously crafted with an emphasis on aerodynamic performance. The wide inlet and outlet openings, combined with aerodynamically shaped blades, facilitate efficient airflow distribution throughout the designated area. Manufactured using high-quality materials and the latest technology, these air circulating fans are tailored to provide the best possible performance. They also offer flexible fan hanging options and adjustable angles to cater to your specific airflow requirements.

Advantages

1. Quick and easy to install.
2. These fans operate with low noise and minimal energy consumption.
3. The statically and dynamically balanced body ensures reduced vibration and excellent stability.
4. These fans are designed to function efficiently in dusty and humid poultry environments.
5. Powered by a 1/2 HP (370 W) motor with a 960 rpm speed, reaching air up to 50 feet away.
6. These air circulating fans help reduce mortality rates during hot summer periods.
7. Safety guards are incorporated on both sides of the fan, preventing big rats entering and damaging the fan's internal components.
8. These air circulating fans have non-corrosive housing and based on advanced working principle.
9. The fans are portable and can be placed on irregular surfaces without issue.
10. These air circulating fans deliver high-performance and extended service life.

39" Fan Specification

Parameter	Single phase motor	Three phase motor
Motor H.P	0.5 HP (370 W)	0.5 HP (370 W)
R.P.M	960 RPM	960 RPM
Voltage & Frequency	230 V, 50 HZ frequency	415 V, 50 HZ frequency
Operating Current	3.5 Amps	0.66 Amps
Sweep	39" Blade diameter	
No. Of Blade	3 Blades	
Fan Gaurd	Powder coated Grill	
Blade Material	Plastic	
Air speed (average)	1848 feet/min	
Air flow	17770.8 CFM	
Size	1088 mm (43 in) x 210 mm (8.3 in)	
39" Fan Hanging	1 Nos Dia.5 mm x 10 ft Wire Rope, 4 Nos M6 U Clamp.
